GENLSUBJECT: SECURITY INDEX/LISTS

Enclosed herewith is one copy each of the following lists for transmittal to the SAC, Quantico, for storage with other vital records maintained by him:

- 1) Alphabetical list of Security Index (SI) subjects.
- 2) Geographical list of SI subjects.
- 3) Special Section of the SI.
- 4) List of key figures and top functionaries.
- 5) List of SI subjects out of the country.
- 6) List of missing SI subjects.
- 7) List of subjects whose citizenship status is unknown.
- 8) List of aliens.
- 9) List of SI subjects of Chinese descent.
- 10) List of SI subjects sympathetic to communist China.

The SAC should destroy by burning the lists furnished in July, 1959. When this action has been taken, he should so note on this memorandum and return it to the Subversive Control Section.

ACTION:

If you approve, this memorandum and the attached lists will be forwarded to Quantico for the above action.

TABULATION BY EMPLOYMENT

In accordance with instructions contained in Bureau letter of 7/17/59, the field has completed an analysis of the employment of Security Index (SI) subjects whose subversive affiliations or associations are communist or other Marxist-Leninist organizations or front groups. The results of this analysis, which are set forth by fields of industry or service, are as follows:

- 1) Industrial, manufacturing and trade fields -- 5,169 -- 43.1%.
- 2) Professional and Cultural fields -- 2,676 -- 22.3%.
- 3) Labor unions (actual employment by the labor union) -- 286 -- 2.4%.
- 4) Subversive organizations and fronts -- 185 -- 1.6%.
- 5) Political and international organizations and domestic and foreign government establishments -- 93 -- .8%.
- 6) Miscellaneous (domestic service, odd jobs, housewives, individuals not gainfully employed, students, and retired persons) -- 3,573 -- 29.8%.

Attached is a chart representing a statistical breakdown setting forth specific areas of employment as obtained from the above analysis.

These statistics will not be current for any appreciable length of time inasmuch as the individuals studied in connection with this survey change employment frequently.

SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS

DATE: September 10, 1959

SYNOPSIS:

Each month we follow the field closely on the status of security work by analyzing the backlog of pending cases and delinquency in espionage, internal security, security matter and foreign intelligence cases in classifications 65, 100 and 105. Status of these cases as of August 31, 1959, is set forth below.

In August, there was a decrease in pending active matters in the entire field in the security classifications from 18,306 to 17,838. Delinquent matters increased from 1,987 to 2,268. The percentage of delinquent matters increased from 10.9% to 12.7%. Matters received during August in these categories decreased from 8,457 to 8,235. Matters closed decreased from 9,310 to 8,517.

Letters are being sent to the offices indicated by asterisks on page four herein, commenting on their delinquency and pointing out the necessity of bringing their security cases to a current status.

RECOMMENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the September, 1959, administrative reports.

SUBJECT: ~~DELINQUENCY IN SECURITY INVESTIGATIONS~~

SYNOPSIS: SECURITY INDEX

Each month we follow the field closely on the status of security work by analyzing the backlog of pending cases and delinquency in espionage, internal security, security matter and foreign intelligence cases in classifications 65, 100 and 105. Status of these cases as of September 30, 1959, is set forth below.

In September, there was a decrease in pending active matters in the entire field in the security classifications from 17,838 to 16,572. Delinquent matters decreased from 2,268 to 1,914. The percentage of delinquent matters decreased from 12.7% to 11.5%. Matters received during September in these categories decreased from 8,235 to 7,185. Matters closed increased from 8,517 to 8,738.

Letters are being sent to the offices indicated by asterisks on page four herein, commenting on their delinquency and pointing out the necessity of bringing their security cases to a current status.

RECOMMENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the October, 1959, administrative reports.

SUBJECT: SECURITY INDEX - (y-1)

We forward to the field quarterly an alphabetical list of each office's Security Index in order that the Security Index cards maintained in the field may be checked and reconciled with Bureau records.

There is attached a proposed letter to all field offices containing appropriate instructions regarding the handling of the list.

RECOMMENDATION:

It is recommended that the attached plastic plate of letter to all field offices be approved and forwarded.

SECURITY INDEX

There is attached for each office an alphabetical list of its Security Index subjects (two copies for New York) prepared from the Bureau's Security Index as of October 15, 1959.

The attached list should be used to reconcile the Security Index in your office with the Security Index at the Seat of Government by checking the names on the list against the Security Index cards. Detailed instructions regarding the handling of this list are contained in Bureau letter to Albany, copies to all offices except Jacksonville, captioned as above, dated January 17, 1956. Jacksonville should refer to Bureau letter of April 21, 1958, in this matter.

INTERNAL SECURITY - ESPIONAGE CONFERENCE  
OCTOBER 22-23, 1959

STANDARDS FOR INCLUSION OF NAMES  
IN SECURITY INDEX

The Conference discussed at some length the instructions and criteria presently utilized in determining whether the names of individuals should be placed in the Security Index (SI), set out in Section 87-D 7 b (3) of the Manual of Instructions, on page 45. It was the definite opinion of the Conference that the present instructions and Manual provisions provide a sound basis for the evaluation of such cases from an SI viewpoint, and are fully adequate to accomplish the Bureau's objectives and responsibilities in this field.

ACTIONS

We will continue to give careful consideration to carefully evaluating each case in the light of our present criteria for inclusion in the SI.

**INTERNAL SECURITY - ESPIONAGE CONFERENCE**  
October 22 - 23, 1959

COMMUNIST INDEX

The Communist Index (CI) includes those individuals with a subversive background of some substance but insufficient to warrant the inclusion of their names in the Security Index (SI). The Conference discussed the review just completed of the CI, which was conducted for the purpose of eliminating those individuals whose inclusion therein is no longer warranted and ascertaining their potential for development as security informants and re-evaluating their cases to determine if addition to the SI is warranted. The Conference considered the desirability of presently instituting a systematic review of the CI to determine current residence, employment and activities. Discussion was had as to the desirability of conducting such a review periodically, either on an annual or biennial basis. The Conference recommended that, in view of manpower considerations and other presently pressing commitments, such as identification of Communist Party members, as well as the fact that a complete review of the CI has just been completed, our efforts at present be concentrated on these other fields of endeavor. It was recognized that it would be desirable to re-examine the CI when other commitments and availability of manpower would permit and it was, therefore, recommended that this matter be reevaluated in the next Internal Security - Espionage Conference. At that time, the conditions then existing would be looked into and consideration given to the desirability of instituting such a program.

ACTION:

We will follow the situation with respect to the CI and, at the time of the next Internal Security - Espionage Conference, or at such other time as any changes in conditions may make it advisable, the matter of periodically reviewing the CI will again be considered.

The following is a report on the status of  
the Security Index since the last count was furnished  
to you on October 9, 1959:

<u>Week of:</u>	<u>New Cards Added</u>	<u>Cards Cancelled</u>	<u>Net Change</u>
October 12-16	16	21	- 5
October 19-23	10	15	- 5
October 26-30	5	18	-13
November 2-6	2	22	-20
November 9-13	14	18	- 4
	47	94	-47

During the above-mentioned period, there was a  
net decrease in the Security Index of 47.

For your information, during the preceding  
four-week period, 44 cards were added to the Security Index  
and 52 cards were cancelled, resulting in a net decrease of 8.

**INTERNAL SECURITY - ESPIONAGE CONFERENCE  
OCTOBER 22-23, 1959**

**SECURITY INVESTIGATIONS OF INDIVIDUALS - (- 191)**  
**REPORT WRITING**

**BACKGROUND:**

The conference briefly discussed utilizing forms in lieu of annual reports in Security Index cases where no information developed since last report. It was agreed that Bureau would give the matter careful consideration. A survey of annual reports submitted by 13 of the larger offices revealed 16 7/10 per cent of annual reports surveyed would be adaptable to "form" reporting. These reports contained only residence and employment information and results of negative checks of informants. Under present report-writing rules even such negative reports must, at a bare minimum, contain: (1) FD-263 (administrative cover sheet), (2) Its continuation sheet, (3) FD-305 (administrative check sheet), (4) FD-204 (report first sheet). Under proposed system, the FD-263 and its continuation sheet would be eliminated. Information contained thereon would be added to the FD-305. This would necessitate, at the least, a two-page form similar to the present FD-305 to serve as an administrative cover sheet. The proposed system would either utilize the FD-204 for dissemination purposes or, as an alternative, a form letterhead memorandum containing spaces for residence and employment information and the statement that informants in the area of the residence and employment of the subject have reported no Communist Party or related activity on the subject's part during the past year.

**ADVANTAGES:**

1. Possible elimination of one administrative page. It is noted that this would save paper only - and not typing.

2. If form dissemination memorandum used in lieu of FD-204, the time to dictate and type the synopsis and the statement regarding negative informant check would be eliminated.

DISADVANTAGES:

1. Lack of uniformity in reporting. This would be another exception to the current standardized reporting procedures.
2. The printing of two new forms would be necessary. Also two different administrative check sheets would be necessary - one for the regular annual reports and one for the negative reports. This would be confusing as well as expensive.
3. Additional training for stenographers, Agents and supervisors would be required.
4. It is also believed that "form" reporting would be psychologically disadvantageous for two reasons:
  - (a) The proposed system would tend to promote a feeling on the part of the field that emphasis is being removed from security investigations.
  - (b) The system would promote a tendency for the field to delay or overlook reporting pertinent material in favor of utilizing "form" reporting.
5. A form letter does not have the appearance and is not as well received as a typewritten report.

RECOMMENDATION:

Since the disadvantages of the proposed system by far outweigh the advantages, it is recommended that no further consideration be given to its adoption.

SUBJECT: COMMUNIST INDEX

The Communist Index (CI) was designed to represent a list of individuals who should, in the light of ever-changing conditions, be continually borne in mind with a view toward possible investigation under the Security Index (SI) program. Bulet of 10-2-58 issued instructions to the field to re-examine cases of individuals whose names are included in the CI, the re-examination to be conducted in equal monthly installments over a 12-month period.

The field was required to submit quarterly reports concerning progress being made.

Final reports have now been received from the field in connection with this program. Such reports have been reviewed and they show that the following statistical results were achieved during the year that the program was in effect:

- 1) The names of 120 individuals were added to the SI based on investigations conducted in the program.
- 2) Initiation of the development of 28 security informants or potential security informants was accomplished.
- 3) 249 individuals were found to be employed in key facilities and/or sensitive positions, requiring additional investigation or dissemination on our part.

In addition to the statistical results set out above, other advantages have resulted from the program. Each case opened resulted, as a minimum, in the obtaining of current residence and employment data, thus bringing up to date our information concerning the subject. It was found that a considerable number of the individuals on the CI had changed either residence or employment and, therefore, as a result of the program, our information concerning them is in a much more nearly current state.

Memorandum for [REDACTED]  
RE: COMUNIST INDEX

FROM:

In addition, the names of a considerable number of individuals ascertained to have died or otherwise not qualified for inclusion in the CI, were removed from such Index. At the inception of the program there were 17,783 names included in the CI. At the present time such Index contains the names of 12,784 individuals. The program has thus been of benefit in purging the Index of individuals no longer qualified for inclusion therein, thereby resulting in making the Index a more workable one.

It is to be noted that at the recent Internal Security - Espionage Conference, 10/22-23/59, the CI was the subject of discussion. The Conference felt that a periodic re-examination of the CI would be a desirable thing to do if and when manpower commitments and other urgent matters would permit, and recommended that the matter of such a re-examination again be considered at the next Internal Security - Espionage Conference.

ACTION:

For information. We will continue to follow the status of the CI and at the time of the next Internal Security - Espionage Conference, or at such other time as conditions indicate it desirable, will again give consideration to re-examination of the CI.

TO: Director, FBI  
FROM:

SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS INDIVIDUALS

SYNOPSIS: Each month we follow the field closely on the status of security work by analyzing the backlog of pending cases and delinquency in espionage, internal security, security matter and foreign intelligence cases in classifications 65, 100 and 105. Status of these cases as of October 31, 1959, is set forth below.

In October, there was a decrease in pending active matters in the entire field in the security classifications from 16,572 to 15,432. Delinquent matters decreased from 1,914 to 1,562. The percentage of delinquent matters decreased from 11.5% to 10.1%. Matters received during October in these categories increased from 7,185 to 7,427. Matters closed decreased from 8,738 to 8,564.

Letters are being sent to the offices indicated by asterisks on page four herein, commenting on their delinquency and pointing out the necessity of bringing their security cases to a current status.

RECOMMENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the November, 1959, administrative reports.

SUBJECT: ADMINISTRATIVE HANDLING OF RECOMMENDATIONS  
FOR THE PREPARATION AND CANCELLATION OF  
SECURITY INDEX CARDS

Memorandum from [redacted] to you dated December 30, 1955, set forth procedural steps involved in the addition of a name to or the cancellation of a name from the Security Index, including the processing of such recommendations through the Statistical Section of another Division. At that time it was recommended that a period of twelve days be allowed for the complete processing of such recommendations.

As the result of a survey conducted for a two-week period in June and July, 1954, it was determined that this time could be reduced to nine days based upon the fact that the over-all average of the processing of both types of mail (cancellations and additions to the Security Index) required 8.4 working days.

An analysis of all the mail in this Section recommending addition of individuals to and deletion from the Security Index for a two-week period during November, 1959, revealed that cancellations are being made in 8.1 days with additions to the Security Index requiring 8.6 days. On an over-all average the mail is being processed through the Section at slightly under 8.4 days.

RECOMMENDATION:

That this Section continue to be allowed nine days for the processing of the above-described mail. We will continue, however, as in the past, to list this mail as delinquent if it is in the Section over the three or five-day period as the case may be.

SUBJECT: / INTERVIEWS OF INDIVIDUALS  
SECURITY MATTERS

Cleveland airtel 10/26/59 and Philadelphia airtels 11/2/59 and 11/18/59 all captioned "Data Regarding Independent Socialist League - Socialist Party - Social Democratic Federation Merger, Information Concerning" reported, in essence, that the current position of the Socialist Party - Social Democratic Federation (SP-SDF) toward FBI contact of SP-SDF members regarding their political affiliations or the political affiliations of any other "comrade" is that the member must refuse to answer and refer the "police agents" to the national headquarters of the SP-SDF in New York City for the information. In addition, the member should submit a written account, preferably in affidavit form, to the SP-SDF national headquarters and the affidavit may be the basis of legal action against the Bureau. The nature of the legal action was not indicated. This information has been furnished to the Department.

The SP-SDF, with which well-known socialist is associated, and its youth affiliate, the Young Peoples Socialist League (YPSL) are not under Bureau investigation; however, in September, 1958, the Independent Socialist League (ISL) (a basic revolutionary group designated pursuant to Executive Order 10450 until July 18, 1958) and the Young Socialist League (YSL), youth affiliate of the ISL, both dissolved and many former ISL and YSL members accepted invitations to join the SP-SDF and YPSL. The Bureau is following the activities of former ISL and YSL members to determine whether they are obtaining control of the SP-SDF or the YPSL. At the present time, 184 former ISL members (some of whom were active in the YSL) remain on the Security Index and they are located in the territories of 21 Bureau offices.

Memorandum for  
RE: INTERVIEWS OF INDIVIDUALS  
SECURITY MATTERS

Bureau airtel 5/19/59 to Albany, copies to all offices, instructed that interviews of subjects included on the Security Index based upon affiliation with the ISL are to be conducted only with Bureau authority. Those instructions remain in effect.

It is believed that the above information concerning the attitude of the SP-SDF toward interview of any of its members should be brought to the attention of the field and that no interviews of SP-SDF or YPSL members should be conducted by Bureau Agents without prior Bureau authority.

RECOMMENDATIONS:

1. That this memorandum and SAC Letter be routed through the Subversive Control Section for approval.
2. That the attached SAC Letter be approved for transmittal to the field. No handbook or manual changes necessary.

SUBJECT: SECURITY INDEX - SECRET

The Security Index files are maintained in Room 1256 in steel cabinets -- three for the Security Index cards and one for related files. Two keys are required to open these cabinets.

To insure maximum security with regard to our Security Index cards, the two keys which open the above cabinets are being kept in your desk under your immediate control and at night and on week ends and holidays under the control of supervisors assigned to duty in your office. These keys have been placed in a 3 x 5 box labelled "Security Index Keys."

Under present procedure, the keys are obtained each morning by a clerical employee prior to 9:00 A.M. on work days. After the cabinets in Room 1256 have been opened, the keys are returned promptly to your office and placed in the 3 x 5 box in your desk.

RECOMMENDATION:

That a copy of this memorandum be placed in the Weekend Duty Folder in your office in order that its contents may be available to the supervisors assigned to your office on nights, week ends and holidays. The latter personnel are reminded of the established policy that under no circumstances are the Security Index cabinets to be opened by clerical personnel during nonwork hours. They may be opened by individual supervisors only upon extreme emergencies and then only with specific approval and instructions of you or me or persons acting in either of our absences. If under such emergency, recourse is had to the Security Index cabinets, under no circumstances may any card be removed.

SUBJECT: DELINQUENCY IN SECURITY INVESTIGATION

SYNOPSIS: ~~This X Gen~~ 15,432 to 15,894. Delinquent

Each month we follow the field closely on the status of security work by analyzing the backlog of pending cases and delinquency in espionage, internal security, security matter and foreign intelligence cases in classifications 65, 100 and 105. Status of these cases as of November 30, 1959, is set forth below.

In November, there was an increase in pending active matters in the entire field in the security classifications from 15,432 to 15,894. Delinquent matters decreased from 1,562 to 1,556. The percentage of delinquent matters decreased from 10.1% to 9.8%. Matters received during November in these categories increased from 7,427 to 7,441. Matters closed decreased from 8,564 to 6,926.

Letters are being sent to the offices indicated by asterisks on page four herein, commenting on their delinquency and pointing out the necessity of bringing their security cases to a current status.

RECOMMENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the December, 1959, administrative reports.

Memorandum for  
RE: - DELINQUENCY IN SECURITY INVESTIGATIONS

DETAILS:

The November, 1959, administrative reports from all offices reflect that the total pending active matters in classifications 65, 100 and 105 increased from 15,432 to 15,894. SUBVERSIVE CONTROL SECTION  
PROGRAM EVALUATION

PERIODIC REPORTS PROGRAM

1. Origin

Annual reports in Security Index (SI) cases have been required since completion of the Summary Report Program 7-14-54 (New York Office 5-1-56). In certain type cases periodic reports were required at specified intervals for many years prior to 1954; i.e. key figures, top functionaries.

2. Purpose

To insure that current information is available to the Bureau in report form in order to keep the Bureau, as well as the Department, advised of the status of SI cases and in order to discharge our responsibilities of dissemination to other interested agencies in the executive branch of the Government.

3. Scope

All offices participate in this program.

4. Tie In With Other Programs

Closely related to the Emergency Detention Program, which deals with plans for the apprehension and detention of potentially dangerous individuals in time of an emergency.

5. Case Load

As of 12-15-59 there were 12,577 SI subjects, each requiring at least one report a year. Many of these cases require more frequent reports; namely (a) top functionaries, quarterly reports. There are 32 individuals considered as "top functionaries." They represent the

highest degree of leadership in subversive organizations and their activities are constantly being followed. (b) Key figures - semiannual reports required in key figure cases presently numbering 639. These individuals represent leadership in subversive organizations on regional, district and state levels and we follow their activities closely. (c) Key facilities - 392 SI subjects are employed in various key plants throughout the country designated by the Department of Defense as key facilities. Semiannual reports are required in these cases in order that we may keep the various branches of the Department of Justice fully informed of the activities of these individuals.

6. Magnitude

This is a major program as evidenced by the fact that in all SI cases investigations must be brought up to date and reports submitted at specified intervals on all SI subjects. Under this program there would be approximately 14,000 separate reports submitted annually. This does not include investigations and reports on individuals currently being nominated for the SI.

7. Administrative Controls

Each supervisor handling security matter cases utilizes a tickler system to insure that reports are submitted when due by the field. In addition, the field is required to advise the Bureau twice yearly, 3-1 and 9-1, of the status of this program.

8. Adequacy and Currentness of Instructions

Instructions dealing with this program are found in Section 87D of the Manual of Instructions. This section of the manual is up to date.

9. Over-all Value

Data dealing with this program is included in the budget material. In addition, this program enables us to thoroughly review the SI status of each individual subject on at least an annual basis. When information is developed clearly indicating that a

PERIODIC REPORTS PROGRAM

subject no longer should be scheduled for apprehension, prompt action is taken to remove his name from the SI. Conversely, if the investigation develops evidence indicating that the subject presents a potential threat to the internal security in time of emergency, his name is included in the SI.

Reports in these cases are widely disseminated to various executive departments. Essentially, every security program of other branches of the Government depends to a large extent on information made available to them by us.

ACTION:

This program will be followed closely and we will continue to require reports in SI cases in accordance with the schedule referred to herein.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS

DATE: December 9, 1959

Section 87D of the Manual of Instructions contains the current regulations pertaining to security investigations of individuals and maintenance of the Security Index (SI). Since this is the primary working guide for the Subversive Control Section, a copy of Section 87 is charged to each Supervisor of the Subversive Control Section and to other officials and Supervisors of the Domestic Intelligence Division whose work relates to security investigations of individuals.

In order to facilitate locating various provisions in this Manual Section, a detailed index has been prepared in the Subversive Control Section. In its final form this index is the result of trial usage of a preliminary draft of the index on a spot basis throughout the Section for several months after which suggestions, amendments, and additions were solicited, discussed, and incorporated where found desirable. It is believed this index will serve as a very practical and helpful adjunct to the copies of Section 87 now being used in the daily operations of these desks.

ACTION:

(1) The 37 officials and Supervisors in this Division holding copies of Section 87D are being furnished a copy of the above-mentioned index.

(2) This index will be kept current in accordance with Bureau instructions dealing with Manuals and Working Guides.

SUBVERSIVE CONTROL SECTION  
PROGRAM EVALUATION

SECURITY INVESTIGATIONS OF INDIVIDUALS

1. Origin

Presidential directives, the initial one being issued in 1939 and since repeated on several occasions. These directives charge the Bureau with the responsibility for investigation of individuals in the internal security field. It is the collecting agency of the entire executive branch for subversive information and has the responsibility of seeing that such information is distributed to those Government agencies having a legitimate interest therein.

2. Purpose

The identification and investigation of individuals who, because of affiliation with subversive organizations, may present a potential threat to the internal security in the event of an emergency and the development of evidence of violations of Federal statutes on the part of these individuals. If, during the course of a security investigation, it is determined that a subject does pose a potential threat to the internal security, he is scheduled for apprehension under the Emergency Detention Program (EDP) by the inclusion of his name in the Security Index.

3. Scope

Field wide.

4. Tie in With Other Programs

Closely related is the EDP, which deals with plans for the handling of individuals included in the Security Index in the event of an emergency. Also closely related are the various security programs of other Government agencies, such programs depending to a large extent on information developed by us and disseminated to such agencies.

5. Case Load

Basically, these cases fall in security classifications 65, 100 and 105. During the period June through November the average field case load in these classifications was 17,217 pending active matters.

The Subversive Control Section is primarily responsible for investigations of individuals under the 100 classification although we do have cases on individuals under the 105 classification, such as the affiliates of the Nationalist Party of Puerto Rico. During the five months' period July-November there was a monthly average of 10,480 pending active matters in classification 100 throughout the field. For comparative purposes, during the same period of 1958 the monthly average stood at 9,940. Thus, the 1959 period reflects a 5.43% increase in such matters over the comparable period of 1958.

6. Magnitude

This program is major from the standpoint of costs and man power and, as such, is referred to in the budget material.

7. Past or Present Weaknesses

Close attention is given the entire operations in this field in efforts to insure that we are fully discharging our responsibilities therewith. During the past six months certain instructions have been issued the field dealing with security investigations of individuals. These instructions dealt not only with thoroughness of investigations (SAC Letter 10-20-59, 59-63 H), but with our over-all coverage of individuals in the communist movement and the identification of members of the Communist Party (SAC Letter 11-3-59, 59-66 H).

8. Administrative Controls

The field is followed closely on its over-all delinquency in the three security classifications mentioned previously. This is handled on a monthly basis. In addition, we follow the field by tickler on pending matters in the field of which we have knowledge and we follow the field for submission of periodic reports in Security Index cases to insure that such are submitted when due.

Memo to  
RE: SUBVERSIVE CONTROL SECTION  
PROGRAM EVALUATION

9. Adequacy and Currentness of Instructions

Instructions dealing with security investigations of individuals are contained in Section 87D of the Manual of Instructions and are in a current status.

10. Over-all Value

Determination of identities of individuals who should be apprehended in the event of an emergency in order to minimize possibilities of espionage, sabotage and subversion, at the time when this country would, in effect, be fighting for its very existence. Dissemination of information of intelligence value to other Government agencies concerning individuals and matters in which they have a legitimate interest. It is noted that essentially, all Government security programs are based upon information developed by the Bureau in this field. Budget purposes.

OTHER PROGRAMS ENCOMPASSED IN AND/OR ARISING OUT OF SECURITY INVESTIGATIONS OF INDIVIDUALS

SECURITY INDEX

As noted previously herein one of the purposes of security investigations is to determine the identities of individuals who because of affiliation with subversive organizations may be considered

Memo to [redacted]  
RE: SUBVERSIVE CONTROL SECTION  
S - PROGRAM EVALUATION

a potential threat to the internal security in the event of an emergency. When such information is developed the name of the individual concerned is included in the Security Index.

We presently have included in the Security Index names of 12,558. Each Security Index case is thoroughly re-evaluated at least once annually at the Bureau and in the field to insure that the cases are sound in every respect should it be necessary to invoke the EDP. If it is found that the subject's activities no longer justify the retention of his name in the Security Index immediate steps are taken to insure that his name is removed therefrom.

Recommendation for inclusion to the Security Index are finally passed on at the Section Chief level or higher. For example, in a complicated case the final decision is made by the Assistant Director.

FRAUD AGAINST THE GOVERNMENT

During the course of security investigations we are continually alert for evidence of violations of Federal statutes. One of the principal violations is of the Fraud Against the Government Statute arising primarily from the subject's failure to list membership in a subversive organization in executing such documents as personnel security questionnaires. All such cases received in the Section are handled on one desk for uniformity. In these cases because of security angles the Department makes a primary review of each to determine whether it presents possibilities of successful prosecution prior to referring the case to the United States Attorney. Consequently, very careful and intensive supervision, as well as investigation, is required. The principal difficulty in connection with these cases has been the developing of witnesses other than current active valuable informants who can testify to a subject's membership in a proscribed organization.

Since July, 1959, we have opened 89 cases for an average of 14.6 cases per month. Three individuals are presently under indictment.

This memorandum copy is being sent to [redacted] for your information and action.

DISSEMINATION - INCLUDING CHECKS FOR AVAILABILITY OF INFORMANTS  
AND SOURCES

Security reports are disseminated to numerous interested agencies throughout the Executive Branch of the Government. By far the vast majority of such reports received are disseminated outside the Bureau. The responsibility of such dissemination necessitates careful and thorough evaluation of each report to assure that it is absolutely accurate both in form and content.

Security programs of other branches of the executive department depend to a large extent on information disseminated by the FBI. Following the Parker vs. Lester decision, holding the then existing Coast Guard screening program invalid and strongly implying that the subjects of security hearings should be confronted with the witnesses against them (10-55), there has been an increasing tendency on the part of primarily the United States Coast Guard and the intelligence agencies of the military to request of the Bureau the availability and identities of various sources, set forth in our reports, for utilization at administrative hearings in connection with security programs handled by these agencies.

Receipt of requests from such agencies for availability of witnesses are referred to the field with appropriate instructions. The final decision with respect to whether a witness can be made available to the requesting agency is in each instance made at the Bureau. In each case a thorough study is required to determine the possible effect on the Bureau's internal security responsibilities should the witness be made available for testimony. In addition, when advising these agencies of the availability of the potential witnesses, it is essential that we also advise such agencies of any information contained in our files reflecting upon the reliability or credibility of such witnesses.

During the period July 1-December 31, 1959, we received requests concerning the availability of approximately 485 witnesses of which 93 were made available as potential witnesses in administrative hearings conducted by other agencies of the Executive Branch.

ACTION:

This program and various facets thereof will continue to receive close attention in this Section.

SUBVERSIVE CONTROL SECTION  
PROGRAM EVALUATION

DELINQUENCY IN SECURITY INVESTIGATIONS

1. Origin

In March, 1952, the program following individual offices on a monthly basis was initiated because of a then existing extremely heavy delinquency in classifications 65, 100 and 105.

2. Purpose

To stress the necessity of reducing delinquency in these categories and the necessity of maintaining these cases in a reasonably current status.

3. Scope

Field wide.

4. Magnitude

This is not a major program from the standpoint of man power and cost.

5. Over-all Value

This program has resulted in a reduction in delinquency in security classifications in the maintenance of such delinquency in a fairly constant status in the past six months. For example, the delinquency average since June 30 through November 30, 1959, in these classifications field wide stood at 10.7%. The highest delinquency recorded during this period was in August (12.7%) with the lowest recorded delinquency being June (9.3%).

SUBJECT: DELINQUENCY IN SECURITY INVESTIGATIONS

SYNOPSIS:

Each month we follow the field closely on the status of security work by analyzing the backlog of pending cases and delinquency in espionage, internal security, security matter and foreign intelligence cases in classifications 65, 100 and 105. Status of these cases as of December 31, 1959, is set forth below.

In December, there was an increase in pending active matters in the entire field in the security classifications from 15,894 to 15,896. Delinquent matters decreased from 1,556 to 1,475. The percentage of delinquent matters decreased from 9.8% to 9.2%. Matters received during December in these categories decreased from 7,441 to 7,416. Matters closed increased from 6,926 to 7,523.

Letters are being sent to the offices indicated by asterisks on page four herein, commenting on their delinquency and pointing out the necessity of bringing their security cases to a current status.

RECOMMENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the January, 1960, administrative reports.

# 609-60

To: <u>Director, FBI</u>	From: (Suggester's name) <u>SA JACK K. MURPHREE</u>	Date <u>2/17/60</u> Division of Assignment <u>KNOXVILLE INVESTIGATION</u>
<p><b>SUGGESTION</b></p> <p>That attached form be adopted on a distinctive colored paper. This form would be filed on top of the last serial of security files on individuals and would not be serialized. Form would contain a characterization of the subject of that particular security file suitable for inclusion in reports prepared on individuals other than the subject of that particular file. This form would be prepared by the agent to whom a security index case is assigned at the time the case is re-opened for the annual or semi-annual report. In other security cases the form would, when appropriate, be prepared when the case is re-opened or prior to a new case being closed.</p>		

Current practice or rule (Include manual citation as well as facts)  
**It is now necessary to review the file until a suitable characterization is located.**

Advantages of suggestion and annual savings (include basis for estimate)  
The advantage of this form lies entirely in the saving of agent and/or correlation personnel time spent in reviewing files for characterizations of individuals. Such characterizations are frequently needed in applicant-type cases as well as in security cases.

**Disadvantages of suggestion****None**

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States)

**RECOMMENDATIONS AND COMMENTS OF DIVISION HEAD:**

I feel that the above suggestion has merit and would result in considerable saving in time, particularly in those offices with a large volume of security and Security of Government employee investigations.

The Investigative Division concurs in the remarks of the Division Head and therefore recommends against acceptance of the proposed suggestion.

**DOMESTIC INTELLIGENCE DIVISION**  
February 26, 1960

**ADDENDUM:**

The Domestic Intelligence Division recommends against adoption of the proposed suggestion for the following reasons:

(1) Preparation of the material would take considerable clerical and stenographic time and it is felt that such would outweigh the benefits derived therefrom.

(2) When looking for a characterization of a particular individual, the case files would have to be reviewed in any event to determine if the data set forth on the form proposed by the suggester is up to date as additional material may have been channelized to the files.

(3) Thousands of these characterizations would be prepared on routine subjects which would either never be used or used very infrequently.

Another disadvantage to the adoption of the suggestion is the fact that one characterization of a subject is not suitable for use in all cases. For example, during the course of an applicant investigation, information may be received to the effect that the applicant was associated with a particular individual in 1953. To characterize that individual as a member of the Communist Party in 1960 would be pointless; rather, a characterization of him reflecting his subversive connections should be as of 1953 if such information is available.

(See Addendum, page 3)

INVESTIGATIVE DIVISION  
March 1, 1960

ADDENDUM:

The Investigative Division concurs in the remarks of the Domestic Intelligence Division and therefore recommends against adoption of the proposed suggestion.
